

Dear Student

If you care about your future, then you can make a good investment by studying Chinese. This can be a life changing investment since Chinese language is getting more and more important in the world of business.

We teach Chinese to students almost free of charge. You pay only a small fee for each semester (40 classes per semester=120PLN). We are opening a beginner's level course on 25th Feb.,2019. So please write back to us at china@vistula.edu.pl if you are interested. Please check the attachment also.

After you learn basic Chinese, there will be real possibilities for you to go to China as an exchange student, intern or for a summer camp almost for free.

Besides the Chinese courses, we also offer Wushu (Kung-fu, Chinese Martial Arts) lessons at Vistula University, which is taught by the coach of Polish National Wushu Team. If you want to get your body in good condition, be more disciplined, improve your physical capabilities, such as speed , agility and flexibility, and increase your memory function, join the Martial Art courses!

If you are interested, write back to us or come to room 401 on 4th floor. And we will also offer enrollment consultation on the ground floor from 13:00 p.m.-15:00 p.m. from 17 Dec. 2018 - 21 Dec. 2018.

Pozdrawiam

Best regards

Confucius Office
